TECHNICAL DATA

DESCRIPTION

P2 glasses protect the entire eye area and combine design, flexibility and functionality, the outer side is coated with hi-vis coloured rubber, anatomically shaped comfortable and soft temples with an elastomer layer to keep the glasses firmly affixed to the wearer's head, the soft nose pad ensures comfortable everyday use, the K&N surface finish provides anti-fog (N) and anti-scratch (K) protection, compliant with EN 166:2001, the glasses are labelled FT, which means they can resist extreme temperatures (-5 °C to +55 °C) and impacts up to 45 m/s. The lens is provided with a UV filter that effectively reflects sunlight and can be also used while working in direct light, optical class 1 lenses are suitable for extended use.

STANDARDS

The safety glasses comply with the requirements of Regulation (EU) 2016/425 of the European Parliament and of the Council on personal protective equipment and Regulation (EU) 2023/998 of the European Parliament and of the Council on general product safety.

This personal protective equipment complies with the requirements of the following harmonized standard:
