UNITS PER CARTON	50 pairs
CARTON WEIGHT	5,6 kg
CARTON DIMENSIONS	0,041 m ³
UNIT PACKAGING	1 pair

The service life depends on the intensity of use and the rate of wear under given conditions. Improper storage conditions, incorrect maintenance, and care will reduce the service life. The warranty period is 24 months. Under no circumstances should the warranty period be confused with the product's service life. With intensive use, the service life may be shorter than the warranty period provided. The product does not contain any substances in concentrations known or suspected to have adverse effects on the hygiene or health of the user. However, skin irritation cannot be ruled out in sensitive individuals; in such cases, discontinue use of the garment. Avoid exposure to fire and sources of intense heat. No accessories or spare parts are intended for these garments. When not in use, it is recommended to store the garment in dry, well-ventilated areas away from direct sunlight. Transport preferably in the original packaging and protect from moisture and extreme temperatures. Dispose of the product in an environmentally friendly manner after use.
