Liquid proof work glove for Controlled Performance™ in oily or wet conditions.

For detailed applications where this product can be used please consult the ATG® website at www.atg-glovesolutions.com.

Main ingredients

Coating: NBR (Nitrile Butadiene Rubber)
Liner: Nylon

Hazardous ingredients

REACH

All ingredients used in the manufacturing and construction of this product are compliant with the EU directive for the "Regulation of chemicals and their safe use" more commonly known as REACH -- EU directive EC 1907/2006. REACH stands for "Registration, Evaluation, Authorisation and Restrictions of CHemical substances". The key aim of REACH is to provide high levels of protection to human health and the environment. More information can be found at: https://single-market-economy.ec.europa.eu/sectors/chemicals/reach_en.

Precautions for use

Before usage, inspect the protective product for any defects or imperfections. If it is ripped or punctured during use dispose them immediately. Wear an appropriate size as too loose or too tight fitting products increase the risk for injuries.

Storage requirements

Store in a cool; dry place which is away from direct sunlight and/or heat. Extended exposure to direct sunlight or excessive heat will reduce shelf life and resulting in fading, discoloration and cracking. Normal anticipated shelf life is 5 years.

Disposal

After the product has been used it may be contaminated with infectious or other hazardous materials. Please dispose to local authority regulations.

Fire notes

The product will decompose at high temperatures. Estinguish using water, CO_2 spray our dry powder.

First aid

Remove contaminated PPE (Personal Protective Equipment). Skin contact: if an allergic reaction occurs seek medical advice immediately. Eye contact; rinse thoroughly with low pressure water. If any prolonged discomfort, seek medical advice immediately.
